

PRODUCT PARAMATER

Features

Power supply voltage : 220VAC

Input temperature sensor type : PT100,Cu50,K,E,J,N,S,B,T,Wre3-25

(user can program it)

Main Output : RELAY output or SSR output (User select one when place order)

Alarm output : 1 way relay alarm output

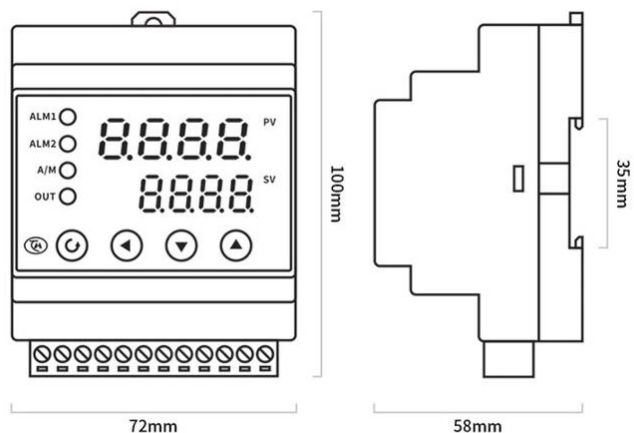

Temperature range : user can program it .

Install : Din 35mm
